Changing the Language of the GeoPro Web App

Gabor Jozsa - 2020-11-05 - in How-To

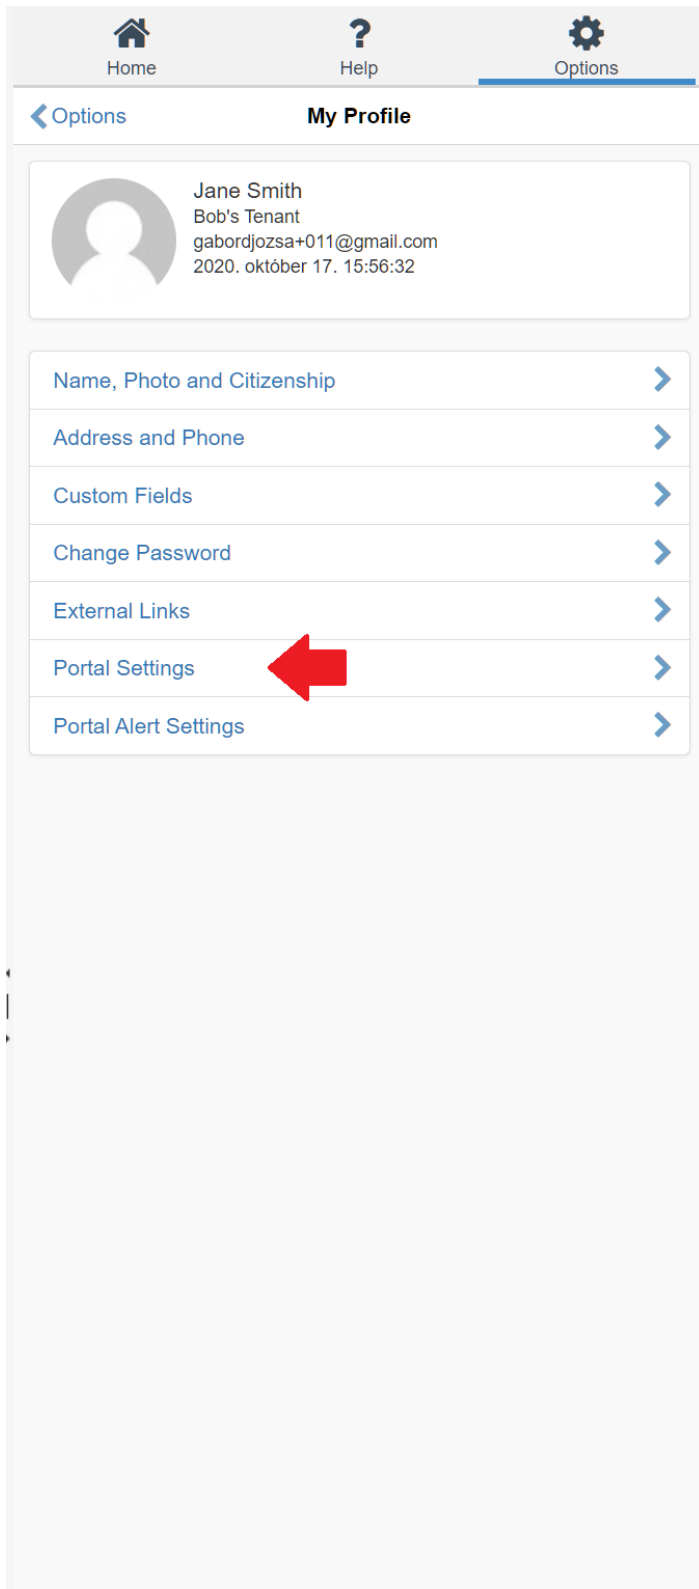

The language of the user interface shown in the GeoPro Web App can be changed through the My Profile settings in the Web App. The currently supported languages for the Web App are: English, French, Spanish & Russian.

To change the language used in the GeoPro Web App user interface:

1. Navigate to the **Options** tab
2. Select **My Profile**.

3. Select **Portal Settings**.

4. Select the desired language from the **Language** drop down list and click **OK** to save.
