## Deleting a Group from the Options tab [GPv3]

Lu Parente - 2016-04-12 - in How-To

Selecting **Groups** from the **Options** tab provides Administrators with the ability to manage groups.

Managing groups consists of **creating new groups, modifying group members, assigning check-in schedules, and deleting groups.**

Administrators and Monitors can perform actions on an entire group, such as **Request Location, Request Check-In, Send Text Message, Enable Check-In Schedule** and **Disable Check-In Schedule.**

This article explains how to delete a group.

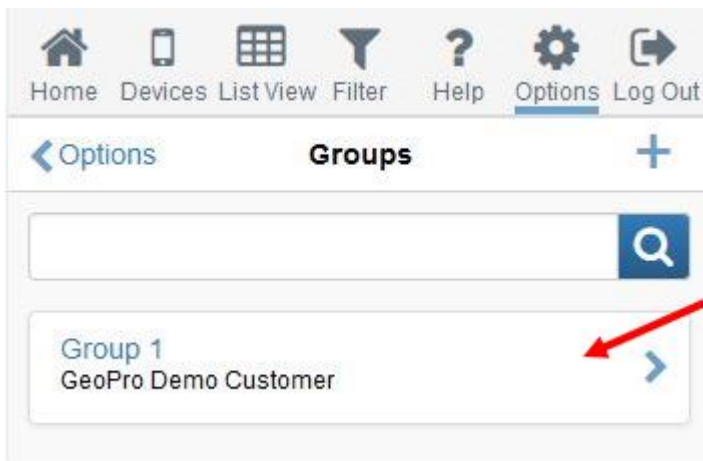

1. To delete a group, navigate to the **Options** tab and select **Groups** from the list.

### Options

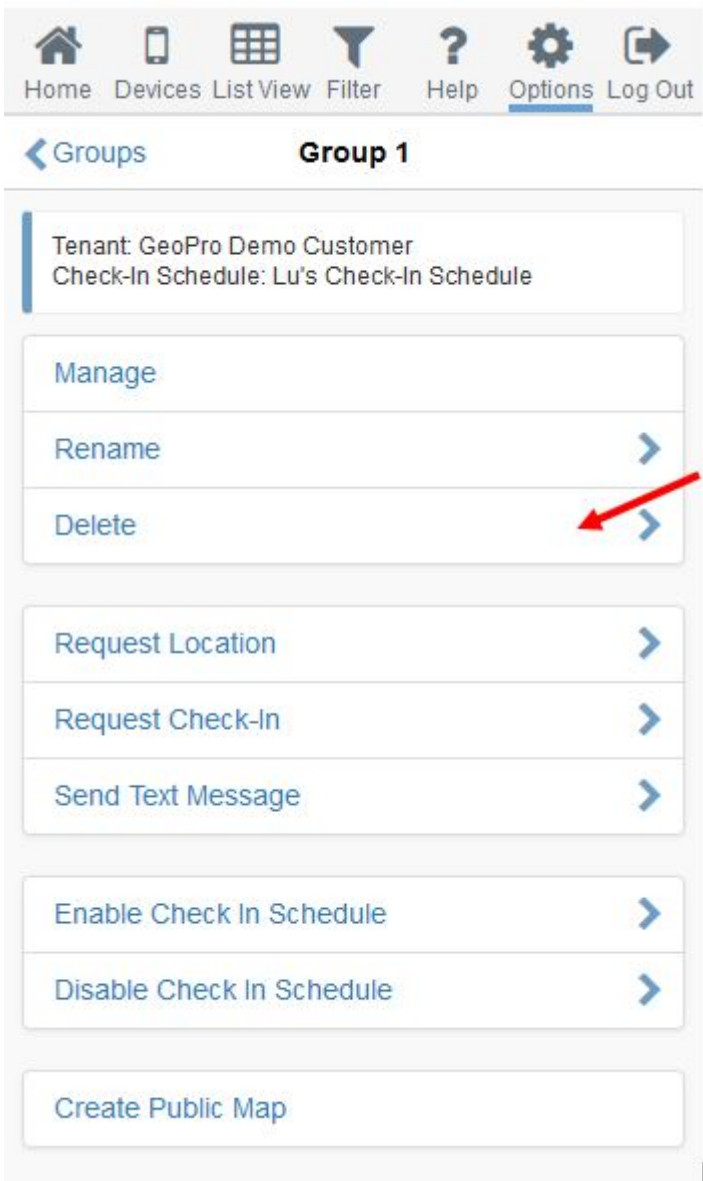

- My Profile >
- Users >
- Groups >
- Global Address Book >
- Global Event Notifications >
- Global Canned Messages >
- Check-In Schedules >
- Synchronization Tools >
- Tracks >
- Geofences >
- Points of Interest >
- Account Management >
- Log a Support Request

2. The groups list will be displayed, select the desired group from the list.

3. The group page will be displayed, select **Delete** from the list.

4. You will then be prompted to confirm the deletion of the selected group. Select **Yes, Delete** to permanently delete the group.
